

## Cartridge guns

---

### Manual cartridge gun

- Light weight
- Economical for small projects
- Hand operated—180 psi

---

### Battery cartridge gun

- Portable - eliminates manual pump
- Applies medium amount of pressure—1200 psi
- No compressor or electricity needed

---

### Pneumatic cartridge gun

- For applications when several cartridges will be used
- Suitable for higher water flow applications
- Allows higher pressure to be applied during injection

## Injection pumps

---

### Lightweight drill pump

- For residential and light commercial applications
- Portable
- Easy maintenance

### Azo-Grout™ commercial pump

- Easy to carry to remote commercial job sites
- Allows higher pressure than the drill pump
- Less complicated to operate than similar commercial pumps
- Convenient trigger-action injection gun
- Improved disconnect for servicing

**Note:** For application information and pricing, consult an Azon manufacturing representative or local distributor.
